December 7, 2017: Pearl Harbor remembrance day. I just want to pause a moment to remember the brave men and women who have served in our armed forces. Freedom isn't free.

F1 or F4 quickbuild fuselage for sale. Due to unexpected events unrelated to the aircraft kit, Robert Thurmond is offering his brand new, F1/F4 QB fuselage kit for sale. The fuselage was constructed by Loyd and Sean Remus of RVBuilders in Peyton, CO. The "buy-it-now" price is \$19,500. Call Robert Thurmond at 512-395-5243 or email him at Robertcropdust@hotmail.com (*I suggest having your money ready, because this fuselage isn't going to last long at this price!! - Vince*)

More details: What you see in the photos is what is included, except for the master cylinders, and the empennage.

The empennage is available. Contact Robert for details on the empennage.

A matching RV-4 wing kit, unassembled, is also available. Contact Robert for details on the wings also.

The fuselage is completed to the quick build stage as you can see in the photos.

I didn't want to put too many photos in this email, so there are several additional photos posted at:

<https://www.f1aircraft.com/category/classifieds/>

Mk3 Empennage update: We are negotiating the next batch of Mk3 empennage kits. We expect the price to come it at around \$3500. We don't expect these to be here for at least 2 months.

Once the next batch is in production, we'll begin taking deposits on the kits. We will post updates here in

these newsletters and on our website.

Mk2 empennage kits are available. There is NO reason not to use one of these brand new empennage kits to produce the tail for your F1 or F4. They are externally identical to the Mk 3 tails and the VNe is the same at 275mph TAS. And they are about \$1000 less in price for these Czech built tails. Contact Vince if you're interested. BTW, we have one kit that is partially assembled by a GOOD craftsman. Ask about it. <https://www.f1aircraft.com/product/f1-f4-empennage-kits-nos/>

That's all for today!

Fly safely,
Vince and crew
